

COONEY FREEZE BLOCK TECHNOLOGY

THE ONLY COIL DESIGNED TO BLOCK FREEZE AND THAW RELATED DAMAGES

BE CONFIDENT WITH COONEY COIL

The Cooney Freeze Block Coil is designed to dramatically reduce future maintenance, premature coil failure and related downtime.

Freeze Block Valves are designed to displace a controlled volume of water as a coil begins to freeze and reseal after discharging to prevent flooding once thawed.

ENGINEERING & SPECS

FREEZE BLOCK

- All coils and valves are factory assembled and tested prior to shipping
- Climate and wind tunnel tested to -74°F
- Valve temperature setting: 35°F to open
- Valve pressure setting: 200 PSI
- Available for steam, hot water and chilled water coils
- 30-month warranty against freeze damage
- 48-month warranty with Cooney Freeze Alert Kit
- Steam coils supplied with factory installed vacuum breaker, pitched case and distributing tube center clips for optimal condensate removal
